

FEATURES

- 100 meters long distance stable transmission, optional POE power supply;
- Compatible with VISION standard, drive-free drive directly support Halcon, VisionPro and other software;
- Support external trigger and flash synchronization, up to 7 GPIO, all photoelectric isolation;
- Support for 16bit grayscale and 48bit color lossless format output ;
- Support multiple cameras work at the same time, the number is not limited, can be any networking ;
- Unique packet retransmission technology to ensure reliable data transmission;
- Excellent SDK design, as simple as using a USB camera, plug and play;
- The SDK supports Windows, Linux, and Mac OS systems.

SPECIFICATIONS

| Model parameter | MV-F1202GC-GE | MV-F1202GM-GE |
|---------------------------|---|---|
| Sensor | 1.1" CMOS , IMX304 | |
| Shutter | Global | |
| Mono/Color | Color | Mono |
| Pixel size | 3. 45X3. 45 μ mm | |
| Effective Pixels | 12MP | |
| Frame rate(fps) | 4096X3000@9. 6FPS | |
| Bit depth | 12bit | |
| Sensitivity | 1146mV | 915mV |
| GPIO | 1 optical input, 1 optical output; 3 input 4 output | |
| Capture Mode | Continuous / software trigger / hardware trigger | |
| Gain | 249. 9 | |
| Exposure time range (ms) | 0. 034~71303 | |
| Filter | Standard with a 650nm infrared cutoff filter | Standard double-sided AR penetration lens |
| Image Buffer | 32M Bytes | |
| User-defined data area | 2K Bytes | |
| Video output format | Bayer8/Bayer12 | Mono8/Mono12 |
| Visual Standards Protocol | GigE Vision V1.2、GenICam | |
| Lens Mount | C-mount is default, optional C or CS mount, M12 lens adapter accessories available | |
| Data interface | RJ 45 Gigabit Ethernet interface, downward compatible with 100M network system | |
| Power Supply | 9~24V(POE is optional) | |
| Power Consumption | <3. 744W | |
| Dimensions | 29 (mm) X39. 5 (mm) X40 (mm) (excluding lens base and rear housing ports) | |
| Weight | <100g | |
| Temperature | Storage temperature:-30° C~ + 60° C; Operation temperature:0° C~+50° C | |
| Other functions | Support arbitrary size ROI custom resolution, contrast and gamma adjustment, saturation adjustment, white balance correction, black level correction, custom dead point coordinate correction, ISP image processing acceleration, 3D noise reduction, custom LUT table, frame rate adjustment, custom camera name, etc. | |
